Work Experience

Technology Analyst at Infosys | 2 years & 9 months

Java Developer | 08/2020 – Present

- Worked as a **backend developer** on development of Alert/Notification System. This project processes, manages & monitors the data sent over email / SMS to users regarding their payment status.
- Migrated some modules of Spring app to Spring Boot app.
- Migrated & refactored legacy codebase from Java8 to Java11, reducing jar size resulting in less resource utilization when deployed.
- Performed Unit testing & debugging which increased code coverage to 90% and above, in multiple applications.
- Introduced charts /graphs in Merchant Dashboard for various KPIs.

Personal Projects

BlogApp | (backend only) Spring Boot, MySQL, AWS

- created the backend of a simple blogging application
- live: [SwaggerUI](#) | [source-code](#)

Portfolio | ReactJs, Heroku

- created a portfolio website while learning ReactJs
- live: [AbdulQuadir](#)

PetClinic | Spring Boot, Thymeleaf, Bootstrap & MySQL

- a simple site to book an appointment with Vet for pets.
- GitHub: [source code](#)

Recognitions

- Infosys Award for Appreciation: 2 times (April & Sept, 2022)
- Letter of appreciation by the client,
 - for upgrading applications from java8 to java11.
 - for increasing code coverage above 90% & performing end-to-end testing for all 6 applications managed by my team.

Skills

Frameworks

- Spring Boot, ReactJS

Build & Deployment Tools

- Jenkins, Docker, OpenShift, Git, GitHub, Maven, Heroku

Databases

- MySQL, PostgreSQL

Languages

- Java, JavaScript

Education

Batchelor of Technology,
Computer Science & Engineering
| 2015-19 | 7.26 DGPA |
Durgapur Institute of Advanced
Technology & Management

Certificates

- HackerRank Certificates for - Java, C, C++ [Aug-Sept, 2020]
